

Easy Does It

Oscar Peterson Trio

The night is early and the sky's still blue
Ain't even got to where we're going to
And you're nibblin' and whisperin' in my ear
 What you wanna do? Baby I do too
 Well I don't wanna take this night too fast
It's just beginning, wait a minute, let's make it last
 Easy does it
We're gonna take our time, girl we got all night
 No need to rush it
 Let's just kick back and relax
 Slow it on down, soak up this moment
 Easy does it
 The summer sun is finally going down
 Parked on this back road not a soul around
 And we're kissing and listening to the radio
When "Let's Get It On" just happened to come on
 Well all day long I've been playin' it cool
You say, "Boy I wanna, when you gonna make your move?"
 Easy does it
We're gonna take our time, girl we got all night
 No need to rush it
 Let's just kick back and relax
 Slow it on down, soak up this moment
 Easy does it
 Easy does it
We're gonna take our time, girl we got all night
 No need to rush it
 Let's just kick on back and relax
 Slow it on down, soak up this moment
 Easy does it
 Ahh, easy does it
