

# Bedside

## Jandek

Going off the deep end  
Oh honey won't you be my friend  
Liberty's a friend of mine  
Beats me to it all the time  
Yeah all  
Going off at the deep end  
See the mercury with you go in  
Missed the days of miracle (mister)  
Hanging from a windowsill  
You better believe yourself  
Crying in the Everglades  
Red yellow orange green  
Chump won't you go before you're seen  
What did you give  
What do you need
