Somethin' About U

Astronomyy

Powers above bring me closer to you
When I look above I see the matter of truth

Yeah, Yeah
It took a little time to discover
That one day we would find one another
I pray I find the way to uncover
Your love because your heart is like no other

There's somethin about you, cause I cannot have you
And I don't want to have to think about the way that I want you

I'm out of my mind for thinking you'd wanna stay
(I'm out of my mind to think you'd wanna stay)
But tell me I'm wrong when you donâ€™t push me away
(So tell me I'm wrong, you don't push me away)

Yeah, Yeah
It took a little time to discover
That one day we would find one another
I pray I find the way to uncover
Your love because your heart is like no other

There's somethin about you, cause I cannot have you
And I don't want to have to think about the way that I want you
