Where Were You

Black Bottom Collective

I used to wake up at nights
Calling out your name
Then cry myself back to sleep
Knowing I'd only dream
I stayed inside for days
Trapped within my mind
Wondering where you had gone
Convinced I could not go on
And just when I started feeling
those hands of time start to healing
You're here at my door saying
Your new dreams have led you back to me
Where were you? When I was going crazy, where were you?
Do you know what your leaving, put me through
When you were feeling lost last thing I knew
You went off to find yourself, where were you?
I can't pretend I'm strong
Or act like I don't care
But I won't betray my heart
Now that we've come this far
I let you go 'cause I had to
I close this door 'cause I need to
This tunnel has a light
It's not that far away it's brighter every day
Where were you? When I was going crazy, where were you?
Do you know what your leaving, put me through
When you were feeling lost last thing I knew
You went off to find yourself, where were you, where were you?
