

Rock You Sweet

[Dustin Lynch](#)

Just holding your hand, while the sea breeze blows
And the waves roll in, swaying those boats
Girl it makes me think
I'd like to rock you sweetUp ahead on the dock there's a little jam band
It's not a far walk if you want to dance
In your bare feet
And I could rock you sweetChorus
and if we get on a roll
Start feeling something deep
Baby just let go
And I'll rock you, rock you sweetHow'd it get so late, I don't wanna go home
There's a hammock over there big enough for both
You can drift off to sleep
While I rock you sweetRepeat Chorus
And if we get on a roll
Start feeling something deep
Baby just go
And I'll rock you, rock you, rock you, rock youRepeat ChorusRock you sweet
Rock you sweet
Rock you sweet
Rock you sweet
