Lost And Found

Prong

Exposing all the frauds
Those heroes for a cause
They're holding some key
Confusing identitiesThe lost and found
Lost in a crowd
Look what they've foundThey're faking in the buck
Purveyors of so much luck
Upholding a true scope
Flag waving egoThe lost and found
Lost in a crowd
Look what they've foundLost and found
Lost and found
Lost and foundThe lost and found
The lost and found
The lost and found
