

# Lost And Found

## Prong

Exposing all the frauds  
Those heroes for a cause  
They're holding some key  
Confusing identitiesThe lost and found  
Lost in a crowd  
Look what they've foundThey're faking in the buck  
Purveyors of so much luck  
Upholding a true scope  
Flag waving egoThe lost and found  
Lost in a crowd  
Look what they've foundLost and found  
Lost and found  
Lost and foundThe lost and found  
The lost and found  
The lost and found
