Amerie

When i least expect it the unexpected when i wasn't looking when i had no hopewhen i stop believing when i lost my place it was there i found you and i found my wayall roads lead to you no matter where i am i know that you are standing by my side all roads lead to you no matter where i've been i know you've aways been my guiding lightand how'd you know that i'd be here with you (here with you) how did you see that nothing could replace ya (nothing's gonna replace you) cuz no matter where i turn yes it all came back to you (you) and no matter what may come i know that you'lll be here to see me throughall roads lead to you no matter where i am i know that you'll be standing by my side all roads lead to you no matter where i've been i know that you have been my guiding lighti search to find high and low for something that was missing it took some time for me to see just where my life was leading no looking back a new beginning's waiting and now i know i never ever have to be aloneall roads lead to you no matter where i am i know that you'll be standing by my side all roads lead to you no matter where i've been i know you've always been my guiding lightall roads lead to you

all roads i know you've always been by my side

all roads lead to you (i know)
i know it
i know you've always been my guiding lightoh yeah
