

# Cheated on Me

Gavin DeGraw

I'm love sick somewhere tonight  
I'm love sick somewhere tonight I don't need writing on the wall  
I felt it for so long  
Am I even on your mind  
Or are you now in [Chorus]  
Someone else's eyes  
Someone else's arms  
Someone else's obvious moves  
I'm a jealous guy  
I hear people talk  
And it isn't hard to believe  
I think you cheated on me I've been this love sick before  
I've felt just like this before There was another just like you  
I loved her for so long  
But I had poison on my mind  
And I drove her into [Chorus] I've said I've had this stage before  
But I left an open door  
For this to walk into my life And maybe I suspect too much  
But this is hard for me to trust  
When I'm all wound up inside  
I just drive you often into Someone else's eyes  
Someone else's arms  
Someone else's obvious moves  
I'm a jealous guy  
I hear people talk  
And it isn't hard to believe  
I was never easy to please  
I think you cheated on me  
You cheated on me  
I think you cheated on me
