Heaven Here Now

Local Sound

The word you wrote to me
Brought me back to life
A living history
Your blood is scarlet in light

Now my world can never be the same

Heaven here now
Love that came down
In you I am found
Heaven here now

Now I look to you
Walk the narrow road
I give my life away
To be a living stone

Now that all the earth would know your name

Heaven here now
Love that came down
In you I am found
Heaven here now

Heaven open wide
Let our worlds collide
Heavenly fire
Here with me now

Like lightning in the sky
Your kingdom on the rise
The thunder of our praise
Echo in the light

See the sun a blaze
Breaking through the night
Look into his face
Behold the rising Christ

The enemy will shake

As we lift our voice loud
Holy is our God
Heaven here and now

See the lost return
All the earth will bow
Holy is our God
Heaven here now
