

# Sharks

## Morphine

Sharks patrol these waters sharks patrol these waters  
Don't let your fingers dangle in the water  
Don't you worry about the day glow orange life preserver  
It won't save you, it won't save you  
Swim for the shores just as fast as your able  
Swim like a mother fucker, swimFast as that seen ships to now the ever glorious now the ever present  
Now drenched in flower and deep fat fried and cooled  
On paper towels and then devoured  
You know, I spent fifteen years in a life raft  
Fifteen years in a life raft, now I got somethin' to sayStay in your life boats people stay in your life boats people  
It's murder out there, murder out there  
Sharks patrol these waters sharks patrol these waters hey  
Don't you worry about the day glow orange life preserver  
It won't save you it won't save you  
Swim for the shores just as fast as your able, swim
