

Grab and Hold

Brian Courtney Wilson

Dont let this world pass you by
Everything that you need is in the
hands of the master savior creator
His name is Jesus Ohh.. Jesus
the one name you need to know
And when you meet him, just grab and hold Don't let this peace pass you by
from every burden that you bare
there is still room round the altar
lay them down.. leave them there
right there with Jesus.. Ohh Jesus
He..... can handle your load
So when you meet him, just grab and hold
my brother my sister Bless His name worship at his throne
God will lift you up and love you as his own
every restless weary wounded broken heart
here has a home
So when you meet Jesus just grab and hold (Whoo ohh) bless His name worship at his throne
God will lift you up and want you as His own
every restless weary wounded broken heart
here has a home ..let me say it again if your restless weary..if your wounded broken you got a home so here's what
you ought to do grab and hold when you feel pushed aside
when you feel thrown away
catch hold to his hand.. let Him lead the way
when you dont know were to turn
and you dont know what to do
God is still the answer
and He's right here waiting for you
So when you meet Jesus just grab and hold
ohhhohh oh just grab and hold.
