

# The Day We Met

[Anthony Hamilton](#)

I can't imagine my life without you baby  
You taught me how to breathe  
Going in and out of relationships I was crazy  
Send someone for me  
I thought I knew what love could do  
You showed me things, real love  
Without a doubt now I know all about  
You showed me things, real love  
Right when I met you, the day that I met you  
You turned my world around, we fell in love  
Right there from the start you came and stole my heart  
You turned my world around, we fell in love  
Now you and me, we gotta jump on the future  
Girl, we gotta plant a seed  
Have us a couple of babies, as many as we can afford  
Come on do it for me, yeah, yeah  
I thought I knew what love could do  
You showed me things, real love  
Now I know all about real love, there's no doubt  
You showed me things, real love  
Right when I met you, the day that I met you  
You turned my world around, we fell in love  
Right there from the start you came and stole my heart  
You turned my world around, we fell in love  
Funniest thing that you never know  
It's the funniest thing when you're feeling low  
Funny how that true love just showed up  
Just showed up, just showed up, just showed up  
Right when I met you, the day that I met you  
You turned my world around, we fell in love  
Right there from the start you came and stole my heart  
You turned my world around, we fell in love  
Right when I met you, the day that I met you  
You turned my world around, we fell in love  
Right there from the start you came and stole my heart  
You turned my world around, we fell in love
