

# Somethin' Bout the Chorus

## Waverland

You think you're thirsty so you grab another drink  
You press that bottle to your lips and take a sip  
You're sipping quiet til you hear that chorus roar  
You stand up screamin' and you're hype to sing some more  
Can't hit the notes there's just somethin' bout the chorus  
It's fun just chillin' so get drunk and sing along  
You feel her fallin' when you put your arms around her  
The ladies shakin' at the knees like there's a ghost  
I think that girl right there could benefit from water  
She just keeps saying "I get drunk and sing along!"  
The margaritas they sip "the rum and coke or they get  
A chilly beer of some kind "like a Corona with lime  
How bout a scotch on the rocks? Tequila shots all around  
Just keep 'em comin' til you're drunk and sing along  
You see that fella over there "he thinks he's high class  
Until the chorus comes when he sings we all laugh  
Now here the chorus comes now everybody shhhh...  
"Whhen we get humpin' I gets zdruhknk and siihng alhong!"
