## Clever

## **Thornley**

Crush my only nerve Overstate what you deserve Crawling on the floor One can see under the doorYou're so clever, you never Said we would last forever I twist it, I missed it Can't keep this thing togetherSaid hey, no way Can't deal with this today Yes I guess you're so cleverCrack your ready whip Gentlemen shoot from the hip Throw my fears away I can't afford them anywayYou're so clever, you never Said we would last forever I twist it, I missed it Can't keep this thing togetherSaid hey, no way Can't deal with this today Yes I guess you're so cleverYou're so clever, you never Said we would last forever I twist it, I missed it Can't keep this thing togetherSaid hey, no way Can't deal with this today Yes I guess you're so clever
