

# Paralysis

## Young the Giant

Paralyzed, on the floor again  
Lately I've been fiending 'Cause it's over I'm stupid  
Living a lie on my own, so alone  
You're calling consistently  
But I'm paralyzed on the floor  
Far from you And lately I've been thinking  
I'm not feeling anything at all  
Will I survive in the dead of night?  
And now the lights are fading faster  
Save me from my disaster  
My disaster Lay the lights down low!  
'God only knows I give up to the fire  
You didn't always come up from the water!  
I only thought you were crying from laughter  
Saving myself from the mouth of a monster  
Paralyzed on the floor again!  
Baby I've been fiending And lately I've been thinking  
I'm not feeling anything at all  
Will I survive in the dead of night?  
And now the lights are fading faster  
Save me from my disaster  
My disaster! Paralyzed on the floor And lately I've been feeling  
I'm not thinking anything at all  
Will I survive in the dead of night?  
And now the lights are fading faster  
Save me from my disaster  
My disaster! 'God only knows I give up to the fire  
You didn't always come up from the water!  
I only thought you were crying from laughter  
Saving myself from the mouth of a monster 'God only knows I give up to the fire  
You didn't always come up from the water!  
I only thought you were crying from laughter  
Saving myself from the mouth of a monster
