

# Cynical Days

XTC

Another year's gone by  
The world's grown older  
Sometimes I heave a sigh  
People grow colder Every day I do my best to show  
I can make it in this world I know  
But all the bad thoughts that people bring  
My faith in human nature's getting pretty thin Help me get through these cynical days  
Help me get through my cynical ways  
You say, it's just a passing phase  
You've got to help me get through, these cynical days Another see through scheme  
People are shallow  
The dark night's closing in  
My dark thoughts follow I try and make my world a better place  
(My efforts seem in vain)  
But I'm competing in a human race  
(Falling deeper down the drain)  
That value things that just don't count  
Makes me wonder what it's all about Help me get through these cynical days  
Help me get through my cynical ways  
You say, it's just a passing phase  
You've got to help me get through, these cynical days Yeah, you say, it's just a passing phase  
You've got to help me get through, these cynical days Yeah, you say, it's just a passing phase  
You've got to help me get through, these cynical days Yeah, you say, it's just a passing phase  
You've got to help me get through, these cynical days Cynical days  
Cynical days
