

# Lost In Space

[Aimee Mann](#)

Lost in space above all drifting  
To a place where planets shifting  
The moon erased, it's features lifting  
The glare But I am the stuff of happy endings  
Though mostly bluff, belief suspending  
But close enough for just pretending  
To care And I'm pretending to care  
When I'm not even there  
Gone but I don't know where Well she's the faith and I'm the devil  
Who keeps the pace and clears the rubble  
And lost in space, fills up the bubble  
With air By just pretending to care  
Like I'm not even there  
Gone but I don't know where It split like a cell  
And man cannot tell  
The lie from parallel So baby beware  
I'm just pretending to care  
Like I'm not even there  
Gone but I don't know where  
Gone but I don't know where  
Gone but I don't know where
