

Complicated

[Raheem DeV Vaughn](#)

Bliss, magnificent, orgasmic
Love can be all these things! They say that we make a good couple
But I'm too afraid to mess up my special
We do what lovers do, but I rather gave it' cool
I would know it's true
All the way she can tell from the surface
I won't never hurt them on purpose
Cause she don't deserve, and I think she's perfect
But there's a chance things will change if she knows this, oh I'm kinda single, but I've been loved
It's complicated because, because
(Lately don't mind)
I've been impatient, can't say we're
I can't explain it, it's complicated, girl!
It's complicated, so complicated
I can't explain it, it's complicated, girl!
I'm being patient, can't say we're
I can't explain it, it's complicated, yeah Our friendship is too good
It damage it if we'll advance it
I don't think we can handle it!
And that's how I feel! I could be wrong
But I speak from experience, I know
Sometimes I get confused, trying to handle it
Going through emotion, when I'm not emotionless
I'd rather be here for her to lean on
And to be mad at me, cause I let this go
It's complicated! I'm kinda single, but I've been loved
It's complicated because, because
I'm being patient, can't say we're
I can't explain it (the situation is this complicated cause)
It's complicated, so complicated (oh, like a puzzle, baby)
I can't explain it but I'm being patient
It's complicated, so complicated
I can't explain it, it's complicated, girl!
I'm being patient, can't say we're
I can't explain it, it's complicated, yeah! You can't change
This friendship I'm bond to remain
Call what you want, but I know what it is
Call love crazy!
My 'my body, I trust in her only

Has good intentions for me!
Call what you want, but I know what it is
Cold blood I'm kinda single, but I've been loved
It's complicated because, because
I'm being patient, can't say we're
I can't explain it, it's complicated
It's complicated, so complicated
I can't explain it but I'm being patient
It's complicated, so complicated
I can't explain it, it's complicated, girl!
I'm being patient, can't say we're
I can't explain it, it's complicated, yeah!
