

# I Depend On You

## Why Don't We

When you dream, I hope that you will dream of me  
If you ever fall, I hope you'll fall for me  
And I swear I know your face, I saw you out there Cause I depend on you  
When you need me you just call me  
I'll be there  
When you look over your shoulder  
I'll be there  
You don't ever have to worry  
Cause I depend on you, I depend on you When you breathe, silent symphony  
When you blink, you steal the sight from me  
When we kiss, endless symmetry  
You don't have to worry I depend on you  
I depend on you  
No, you never have to worry  
I depend on you  
Cause I'll be there in a hurry  
I depend on you  
When you need me I'll be coming  
I depend on you... When you dream, I hope that you will dream of me  
And if you ever fall, I hope you'll fall for me  
And I swear I know your face, I saw you out there Cause I depend on you  
When you need me you just call me  
I'll be there  
When you look over your shoulder  
I'll be there  
You don't ever have to worry  
Cause I depend on you, I depend on you  
When you breathe, silent symphony  
When you blink, you steal the sight from me  
When we kiss, endless symmetry You don't have to worry I depend on you  
I depend on you  
No, you never have to worry  
I depend on you  
Cause I'll be there in a hurry  
I depend on you  
When you need me I'll be coming  
I depend on you...
