

# Thinking About You

Hardwell

I wake up smiling every morning  
Yeah, I don't mind sleeping alone  
People ask me if I don't miss you  
But I ain't been thinking about All the nights we've spent together  
And how your skin felt on my skin  
And I'm just calling to let you know  
Uh, I ain't been thinking about you Been thinking about you  
Been thinking about, thinking about, thinking about  
I ain't been thinking about you  
Been thinking about you  
Been thinking about, thinking about  
I ain't been thinking about you (You)  
(I ain't been thinking about you)  
(I ain't been thinking about you) I go out every single evening  
I drink a little bit too much  
People ask me if I don't miss you  
But I ain't been thinking about Nights when we went out together  
When it was us against the world  
No, I'm just calling to let you know that  
Ooh, I ain't been thinking about you Been thinking about you  
Been thinking about, thinking about, thinking about  
I ain't been thinking about you  
Been thinking about you  
Been thinking about, thinking about  
I ain't been thinking about you (You)  
(I ain't been thinking about you) I ain't been thinking about you  
(I ain't been thinking about you)  
I ain't been thinking about you  
(I ain't been thinking about you)  
(I ain't been thinking about you) (No, I'm just calling to let you know that)  
Ooh, I ain't been thinking about you Been thinking about you  
Been thinking about, thinking about, thinking about  
I ain't been thinking about you  
Been thinking about you  
Been thinking about, thinking about  
I ain't been thinking about you (I ain't been thinking about you)  
I ain't been thinking about you
