

# Circadian Rhythm (Last Dance)

## Silversun Pickups

Another night alone, temporary dream  
I came in through your window, sleep-walkin'  
Standing arm and arm, still so out of reach  
There's nowhere left to go, so stay with me Stay with me Footsteps on the floor, your body's just a haze  
In a rhythm of your own, just out of reach  
Feel my body swoon, dare you say my name?  
I've got nowhere left to dream, so I'll just stay awake Stay awake At last, at last  
I'm found, not Found Circle, circle  
Around, around Last dance, last dance  
No sound No where left to go, stay with me  
No where left to go, stay with me Nowhere to go, nowhere to go  
Nowhere to go, nowhere to go Circle around  
Nowhere to go, nowhere to go  
Circle around  
Nowhere to go, nowhere to go  
Circle around At last, at last  
I'm found, not found  
Circle, circle  
Around, around  
Last dance, Last dance No sound Nowhere left to go, stay with me  
Nowhere left to go, stay with me (Just Nikki)  
Nowhere left to go, stay with me  
Nowhere left to go, stay with me
