

# Enough Is Enough

## Eli Young Band

Another empty promise  
A good intention from the start  
You failed to mention  
Our love would be this hard  
I'm tired of talking  
Don't have nothing left to say  
Well maybe sometime  
We'll sift through the ashes one day

Chorus:

I can't lean on you 'cause I fall right over  
Can't count on you it doesn't add up  
I see we're through and the truth is pretty sober  
This is going nowhere enough is enough

The hardest part in my choice to leave  
Was not quite knowing what I'd achieve  
But now I know I can be stronger on my own  
That's what sleepless nights and only God have shown

Repeat Chorus

Well I made up my mind I won't have a change of heart  
And I've removed myself from every single part of you  
I can't lean on you  
I can't count on you

Repeat Chorus

I lean on you I fall right over  
I count on you it doesn't add up  
I see we're through the truth is pretty sober  
This is going nowhere enough is enough

I can't lean on you  
I can't count on you  
Yeah, I see we're through  
Yeah enough is enough
