# Junkie

## 100 Monkeys

Ever since you left me my clothes don't seem to fit
The beers are always empty
I've quit trying to quit smoking my cigarettes
Ever since you left
Ever since you walked out my door
The bills keep pilling up
It's not as if I can't afford the money
I have enough
I just given up and I don't care enoughAll my family worried about me
Well all my friends they'd worried about me
What have I done for them to doubt me
It's not like I'm a junkie for your love
It's not like I'm a junkie for your loveEver since you left me I won't pick up the phone
Every single time I do
Someone asks me if you're home
And I have to say no
They have to ask where did you goThe last time that I slept with you
Was the last time I slept
I lie awake with every other girl
Wondering if you wept
After you left
If only after you leftAll my family worried about me
Well all my friends they'd worried about me
What have I done for them to doubt meIt's not like I'm a junkie for your love
It's not like I'm a junkie for your love
It's not like I'm a junkie for your love
It's not like I'm a junkie for your love.
