That's Where I Come In

Smoking Popes

I just can't get enough of my girlfriend
I'm glad I'm so in love with my girlfriend
She just wants to be somebody's baby
That's where I come in
Helping her get through the grey skies and the blue, blueI can't get out of bed with my girlfriend
I'll just stay here instead with my girlfriend
She just wants to be in somebody's arms
That's where mine come in
Holding her so tight, morning noon and nightShe just wants to be somebody's only one
That's what I have done
And I'm so glad that she is glad to be with meLa, la, la, la, lum [repeat three more times]
