

Distance

Neverending White Lights

Scream out all the ways you notice
The past is gone, forget what you had
If youre the only one who knows it
Then you cant come back to me, I know
Do whispers of lovers always hold you way
Underneath the tide in our minds? Dont you wish you were?
Dont you wish I was?
Something more than mystery to uncover
Dont you wish I was?
Dont you wish we were?
Lovers without distance from each other You say you believe in all this
But you cant pretend for the sake of faith
Are we the only ones who mean it?
For all you give you take from me Dont you wish you were?
Dont you wish I was?
Something more than mystery to uncover
Dont you wish I was?
Dont you wish we were?
Lovers without distance from each other
And I had wished you were
And I had wished we were
Lovers without distance, distance from each other (If you see them) Lovers without distance from each other Do
whispers of lovers
