Tell Me

White Lion

We held each other tight
And ran away into the night
Oh baby you were so afraid
We knew we couldn't stay
Your parents didn't understand
The love we had together
We were teenagers
Far away from home
We were cold and all alone
So tell me baby all through the night
That you'll never let me go
Tell me baby 'cause I want the world to know
Together we were one
We found the place where dreams are made
And hearts never broken
We said we'd never leave
You know we couldn't turn around
And face that we had left behind
We were young in love
Out on the run
We were cold and all alone

So tell me baby all through the night
That you'll never let me go
Tell me baby 'cause I want the world to know
Tell me baby I'm the only one
And all you ever need
Tell me baby that you'll never let me go
Oh, come on and tell me
Oh and never let me go
Oh, never let me go
Tell me baby all through the night
That you'll never let me go
Tell me baby 'cause I want the world to know
Tell me baby I'm the only one
And you ever need
Tell me baby that you'll never let me go
Oh baby, you know we couldn't turn around
'Cause we were young up against the world

So tell me, tell that you'll never let me go
'Cause I need your love, and I need it all the time
