

# One Week Of Danger (Demo Version)

## The Virgins

We're best friends  
We hold hands  
We're in love  
Your my man Well is there something that you like like about her, yes  
I like the way that her body bends in half  
And is there something that you love about her, no  
Man If she's playing hard to get I'm out the door Come on baby, we get along  
Please don't just spoil it  
Don't steer us wrong, Oh! CHORUS:  
Give me just one week of danger at a time  
Loving isn't easy but it sure is fun  
Yeah, just one week of danger at a time  
Loving isn't easy but it sure is fun Well is there something that you wanted from her, yes  
I want her legs, her body, and her calves  
And is there something that you needed from her, no  
Man if she's playing hard to get I'm out the door Come on baby, we get along  
One week of danger's not very long  
No! CHORUS You talk about me like you own me, baby  
That's not fair  
I told you that I had somebody else  
You did not care  
And now you're trying to make me out to be some kind of square  
You're talking on the telephone, you're telling all of your friends CHORUS X2
