Simple Kid

Edith, playboy, rolling stone
It's been 20 years since your first scars
Evel Knievel, rest your bones
They said of you, the boy'd go far So please excuse if I have no news
I've made a new friend but she's in my body
Please excuse if I seem used
I'm out of time You're there, I'm here, we ain't alone
I've wedded you across your stars
Edith, playboy, rolling stone
It's been 20 years since our first scars So please excuse if I have no news
I've made a new friend but she's in my body
Please excuse me if I seem used
I'm out of time
