

Let Me Go Lover

[Hank Snow](#)

Let me go, let me go, let me go woman
Let me be, set me free from your spell
You made me weak, cut me deep I can't sleep woman
I was cursed from the first day I fell You don't want me but you want me to go on wanting you
How I pray that you will say that we're through
Please turn me loose what's the use let me go woman
Let me go, let me go, let me go You don't want me but you want me to go on wanting you
How I pray that you will say that we're through
Please turn me loose what's the use let me go woman
Let me go, let me go, let me go
