

# Vanished

Univz

One moonlit night  
We vanished from the fuss  
To a familiar place to hide  
Where no one could find us  
How close How close  
How close is Our exit  
How close How close  
How close is Our exit  
Prayed during the night  
Once again we sat in silence  
All is said and done  
Only faith lives inside us  
How close How close  
How close is Our exit  
How close How close  
How close is Our exit
