Look At Me Now

Sixwire

Advisory - the following lyrics contain explicit language:

Sunshine shining in the summertime breeze
The whole world's smiling, if you know what I mean
Cool, cool time, hangin' out with the boys
An AM radio making some noiseTunin' in to a moment in time
When everything seemed like the perfect rhyme
Here it is, here I go, my show can't wait
Gotta do it now 'fore it gets too lateHey man, look at me now
Nothing in the world's gonna get me down
Sparks fly, I'm on fire
Way up high and I'm getting higherTurn it loose turning it on
On a day like this
What could go wrong?
Tip my hat, blow a kiss to the crowd
(Hey man, look at me now)Green grass growing on the edge of my feet
Feels good knowing I'm not out of my league
Singing a song that I never have sung
Out of my reach on the tip of my tongueWho knows if tomorrow will come
It really don't matter 'til this day's done
Gotta move gotta go my fate my turn
Still a little daylight left to burn
(Still a little daylight left to burn)Hey man, look at me now
Nothing in the world's gonna get me down
Sparks fly, I'm on fire
Way up high and I'm getting higherTurn it loose turning it on
On a day like this
What could go wrong?
Tip my hat, blow a kiss to the crowd
(Hey man, look at me now)Sunshine shining in the summertime breeze
The whole world's smiling, if you know what I mean
Here it is, here I go, my show can't wait
Gotta do it now 'fore it gets too late
(Gotta do it now 'fore it gets too late)Hey man, look at me now

Nothing in the world's gonna get me down
Sparks fly, I'm on fire
Way up high and I'm getting higherTurn it loose turning it on
On a day like this
What could go wrong?
Tip my hat, blow a kiss to the crowd
(Hey man, look at me now)Hey man, look at me now
(Now)
Look at me now
(Now)
Look at me now
(Now)
Look at me now
(Now)
Hey man, look at me now
