

# A Thousand Words

## Savage Garden

Advisory - the following lyrics contain explicit language:

We stumble in a tangled web  
Decaying friendships almost dead  
And hide behind a mask of lies  
We twist and turn and we avoid  
All hope of salvage now devoid  
I see the truth inside your eyes So take all this noise to your brain  
And send it back again  
I'll bare the cost, shed my skin  
Call you up and then  
I'll say the words out loud You can resurrect a thousand words  
To deceive me more and more  
A thousand words will give the reason  
Why I don't need you anymore Time manipulates your heart  
Preconceptions torn apart  
Begin to doubt my state of mind  
But I won't go down on what I said  
I won't retract convictions read  
I may perplex but I'm not blind So take all this noise to your brain  
Send it back again  
I'll bear the cost, shed my skin  
Call you up and then  
I'll say the words out loud You can resurrect a thousand words  
To deceive me more and more  
A thousand words will give the reason  
Why I don't need you anymore I'll say the words out loud  
I'll say a thousand words or more  
Manipulation fabrication  
Conversation annihilation  
I'll say a thousand words or more  
Damnation frustration elevation procreation  
I'll say a thousand words or more You can resurrect a thousand words  
To deceive me more and more

A thousand words will give the reason  
Why I don't need you anymore You can resurrect a thousand words  
To deceive me more and more  
A thousand words will give the reason  
Why I don't need you anymore
