Die Tonight Live Forever

Innerpartysystem

You can feel the pounding
Wrapped around your chest
Nothing's too excessive
When you've got nothing leftWe're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost controlIf we all should die tonight
We will have no regrets
If we all should die tonight
We will have no regretsIf this night should take my life
(We cant go back we cant go)
If we all should die tonight
(we cant go back we cant go)You can see the plastic
Dripping off your face
We may not all be pretty
But we feel pretty fakeWe're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost controlIf we all should die tonight
We will have no regrets
If we all should die tonight
We will have no regretsIf this night should take my life
(We cant go back we cant go)
If we all should die tonight
(we cant go back we cant go)If this night should take my life
(We cant go back we cant go)
If we all should die tonight
(we've got nothing left)We're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost control
We're all here 'cos we've lost controlIf this night should take my life
(We cant go back we cant go)
If we all should die tonight
(we cant go back we cant go)If this night should take my life
We got nothing left
If we all should die tonight
We got nothing left
