## Sounds Under Radio

Just wake me up inside  
Because I'm tired of dreaming  
I'm holding someone else  
But I just can't feel Our bodies still collide  
But can't stop this bleeding  
So where do we begin  
When nothing is healing Just help me get out, help me get out Did you feel so alive as the walls started cumberling  
Does it eat you up inside... know that we'll always... The cracks in me, are all that your eyes can see  
But I don't know, why, I, can't ever heal them Just hold me to myself  
My body is breaking  
So how can we defend, these moments we're stealing Just help me get out Did you feel so alive as the walls  
started cumberling  
Does it eat you up inside... know that we'll always... You know that you can't fix yourself without control  
(over and over we can't fill these cracks in the ground)  
You know that you can't hold yourself up when you want to drown  
(over and over these screams are what helps me get out) Did you feel so alive as the walls started cumberling  
Does it eat you up inside... know that we'll always... Did you feel so alive as the walls started cumberling  
Does it eat you up inside... know that we'll always... help me get out, just help me get out
