Almost There

Brenda Lee

Almost there we're almost there
How wonderful wonderful our love will be for you for me
We're almost there where we will share
A warm caress tenderness a dream come true for me for you

Love has waited such a long time now we're a kiss apart
Darling this is the right time to let the kisses start
For you are almost mine and soon we'll find
A paradise paradise so rare
Close your eyes for we're almost there

(How wonderful wonderful our love will be for you for me)
Yes your almost mine and soon soon we'll find
A paradise paradise so rare
Close your eyes (close your eyes) close your eyes (close your eyes)
Close your eyes and we're almost there
