

# Going Steady

## Death from Above 1979

Oh you should see her now  
We still love her now  
She is going steady  
But we're not ready  
To see her fall in love I know you are getting older  
We should never turn our shoulder  
I have never seen you suffer  
I will never hurt you mother  
[Repeat] I will never make you suffer  
I will never hurt you mother
