Over Our Heads

Zero 7

Close your eyes
Can't you see it's burning slow
Fading down
The sparks of fire earth bound
Space in two
Warmth beyond the love below
Close your eyes
It's time for us to go
Over our heads
Light keeps passing through
Over our heads
Lite from me to you
Falling down
Way beneath the healing skies
Rise and shine
The crying times left behind
Over our heads
All we see is true
Over our heads
Can't you see it too
Over our heads
Light keeps passing through
Over our heads
Lite from me to you
