## Day Too Soon

## Sia

Pick me up in your arms Carry me away from harm You're never gonna put me downI know you're just one good man You'll tire before we see land You're never gonna put me downI've been running all my life I ran away, I ran away from good Yeah, I've been waiting all my life You're not a day, you're not a day too soonHoney, I will stitch you Darling, I will fit you in my heart Honey, I will meet you Darling, I will keep you in my heartYou'll risk all this for just a kiss I promise I will not resist Promise you won't hold me downAnd when we reach a good place Let's be sure to leave no trace Promise they won't track us downNow I've been running all my life I ran away, I ran away from good Yeah, I've been waiting all my life You're not a day, you're not a day too soonHoney, I will stitch you Darling, I will feel you in my heart Honey, I will meet you Darling, I will keep you in my heartI've been running all my life I ran away, I ran away from good Yeah, I've been waiting all my life You're not a day, you're not a day too soonHoney, I will stitch you Darling, I will feel you in my heart Honey, I will meet you

Honey, I will meet you
Darling, I will keep you in my heartHoney, I will stitch you
Darling, I will feel you in my heart
Honey, I will meet you

Darling, I will keep you in my heartHoney, I will stitch you Darling, I will feel you in my heart
