

It's Only Time

The Magnetic Fields

Why would I stop loving you
A hundred years from now?
It's only time
It's only timeWhat could stop this beating heart
Once it's made a vow?
It's only time
It's only timeIf rain won't change your mind
Let it fall
The rain won't change my heart
At allLock this chain around my hand
Throw away the key
It's only time
It's only timeYears falling like grains of sand
Mean nothing to me
It's only time
It's only timeIf snow won't change your mind
Let it fall
The snow won't change my heart
Not at all(I'll walk your lands)
I'll walk your lands
(And swim your sea)
And swim your seaMarry me
Marry me(Then in your hands)
Then in your hands
(I will be free)
I will be freeMarry me
Marry meWhy would I stop loving you
A hundred years from now?
