

Musty (feat. Ballout & Lil Bibby)

Chief Keef

KidWonder, you made this beat? Dang!

(Let's get it)

A nigga bitch with me getting real touchy

Your bitch wanna get real touchy A nigga bitch with me getting real touchy

That bitch wanna get lovey-dovey

They be like to do a lot of fussing

But then they don't do shit for me

She tryna make a nigga get lusty

She see a nigga smoking on musty

Me and gang nem pull them four's up

She see me at the corner with the doors up

(Let's get it) Running up them bands, I get money

I'm my own boss, I'm tryna front me

Foreign in the back, foreign in the front of me

A couple bands ain't enough for my tummy

I'ma call the shooters, tell them round up

They ain't know a diamond til' they found us

In the strip club, tell 'em bring the ones out

Bet I had them bitches runnin' with they buns out

Hella dirty fantas and sprites

You getting bread, let's get a slice

Drop a bitch off at Venice

Look, a gorilla in ice

Police got me on a heat sheet

I'm stepping on the bitches, they beneath me I just pulled up on GLO GANG Street

I just bought a street sweeper, sweep sweep

A nigga bitch with me getting real touchy

That bitch wanna get lovey-dovey

They be like to do a lot of fussing

But then they don't do shit for me

She tryna make a nigga get lusty

She see a nigga smoking on musty Me and gang nem pull them four's up

She see me at the corner with the doors up

(Let's get it) Said I walk up in the spot, but I'm smelling like a pound

Busting at the top, Play with me it's going down

We the hottest niggas round, we might show up to your town

On my neck, a hundred thou', touch, I put you in the ground Tried to swim in water with the sharks, he gon'
drown

White bitch sniffin' white, shit, I call her Bobby Brown

Tryna get my dick wet, you ain't fucking dipset
I ain't had a hit yet, still got a big TECA nigga bitch with me getting real touchy
That bitch wanna get lovey-dovey
They be like to do a lot of fussing
But then they don't do shit for me
She tryna make a nigga get lusty
She see a nigga smoke on musty
Me and gang nem pull them four's up
She see me at the corner with the doors up
(Let's get it)
