

# Cadillac

## Danko Jones

I bought a white cadillac  
I bought it off my Mom and Dad  
They said don't forget the keys son  
So you can get it onI keep the backseat for loving  
I like to drive upfront  
And when we're making out  
I keep your boy in the trunkI like it when you're licking ice cream  
It gets all over the upholstery  
Don't like it hard I like it soft  
So I can lick it offAnd when its midnight  
And I'm about to drive by  
You got to kiss me on my cheek  
Before we say goodbye
