Overrated

Five Times August

So what I need is a fast car
Maybe think like a superstar
'Cause "everybody's doing it"
I'll coin the phrase and prove it to allWhat you are is your own self
At the bar you were someone else
That plaid skirt and button up shirt
Don't label who you areAnd I see this is overrated
I believe we're just concentrated
On what's overrated
It's never gonna stopHear a song on the radio
Sing along, so predictable
'Cause it's hard to be original
When everyone's so typical
Or maybe I'm just living it tooAnd I know it's not about me
Or anything that I've gotta say
'Cause it's all in how you see it
You might not believe it
The politics could change in a dayAnd I see this is overrated
I believe we're just concentrated
On what's overrated
It's never gonna stopAnd I see this is overrated
I believe we're just concentrated
On what's overrated
It's never gonna stop
Gonna stop no no no no
It's never gonna stop
