

# Talk to Me

Gloria Loring

Weâ€™ve been holding on so long  
Just pretending nothingâ€™s wrong  
A little heart to heart is overdue  
Now maybe my imagination is working up a situation  
I think itâ€™s time I heard your point of view

Baby, wonâ€™t you talk to me, tell how you feel  
The only thing can hurt us is what our hearts conceal  
Donâ€™t you know I love you, really love you  
Iâ€™ll give you what you need  
Come take a walk with me, sit down and talk to me

I wish there were an easy way  
To get us back to yesterday  
Before the disappointments settled in  
Whatâ€™s the use in our defending  
All the wasted time weâ€™re spending  
Seeing which of us is gonna win?

Baby, wonâ€™t you talk to me, tell how you feel  
The only thing can hurt us is what our hearts conceal  
Donâ€™t you know I love you, really love you  
Iâ€™ll give you what you need  
Come take a walk with me, sit down and talk to me

If weâ€™re in this together  
Baby, nowâ€™s the time to choose  
â€˜Cause if we canâ€™t tell the truth  
Before too long, thereâ€™ll be nothing left to lose

Baby, wonâ€™t you talk to me...
