Forever I'm Yours

Stan Walker

I am yours i am yours forever forever
Tonight I came here thinking I would never fall in love
I should have known you take me for a ride whats up
When I see you looking in my eyes I go dumb dumb
Your touch the way you make me feel cant get enough
You know just how to turn me up and let it go
I am hooked I think is time I get you here alone here alone
I am tripping out I am going crazy
I must fall out you got my heart racing
Lose control I surrender
Girl you got me
Saying things I never said before
You are doing things I just cant ignore
You are taking me out of my mind
You are taking all my time
And I dont even care if you stay the night
I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
The way you are talking to me makes me go insane
And I dont want to get .. to me
Cause girl you got a hold on me me me
Dont stop me baby
I cant help myself
I am going crazy

There is no one there
You are taking me higher
You burn out the fire
I am tripping out I am going crazy
I must fall out you got my heart racing
Lose control I surrender
Girl you got me
Saying things I never said before
You are doing things I just cant ignore
You are taking me out of my mind
You are taking all my time
And I dont even care if you stay the night

I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
I take you away far away
Let me lead the way for you
I never thought you make me feel this way
I am tripping out I am going crazy
I must fall out you got my heart racing
Lose control I surrender
Girl you got me
I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
I am yours I am yours forever forever
