How We Love

Gretchen Parlato

Where from a breeze upon a summer day
And I cannot say where all the time goes
Follow by the shadows of our yesterdays
But they've gone away and leave us all to find out
Who we are inside our mindsAnd you decide it's time to change
Slowing down creates such a beautiful melody
Sounds up in the sky all realize that you and I will go
On and on and on and on and onOh how you love me oh how we love
Oh how you love me oh how we love
Oh how you love me oh how we love
Oh how you love me oh how we loveWhere from a breeze upon a summer day
And I cannot say where all the time goes
Follow by the shadows of our yesterdays
But they've gone away and leave us all to find out
Who we are inside our mindsAnd you decide it's time to change
Slowing down creates such a beautiful melody
Sounds up in the sky all realize that you and I will go
On and on and on and on and onOh how you love me oh how we love
Oh how you love me oh how we love
Oh how you love me oh how we love
Oh how you love me oh how we love
