

# Liquid Love

## Darkwaternz

I wait for you, my love  
I ache for you, my love  
Call this a liquid love

Rain down on me You should have come over Your love slips through my hands

These streets like sinking sand

Drowning in liquid love

Rain down on me I call out your name  
(You should have come over)

Your love is chasing through my veins

(You should have come over) Such a foolish game  
(You should have come over)

Your love's no good for me, good for me

But it makes me happy Makes me happy I wait for you, my love

I ache for you, my love

Call this a liquid love

Rain down on me I call out your name  
(You should have come over)

Your love is chasing through my veins

(You should have come over) Such a foolish game  
(You should have come over)

Your love's no good for me, good for me

But it makes me happy
