

# In the Dark

## The Birthday Massacre

All these broken pieces left unglued  
Should never find their way into  
The hands of someone like you I'm in the dark, I'm alone around you  
I've never been here before  
Nobody here to get me through  
Oh, I'm in the dark Every minute shared is never mine  
Frozen in this fog and hiding  
Every second in time I'm in the dark, I'm alone around you  
I've never been here before  
Nobody here to get me through Oh, I'm losing my faith in every way  
That points to you, oh  
I'm in the dark, I'm alone around you  
Oh, I'm in the dark The more weak the day, the less I behave  
As if everything black can wash away  
Oh, can't I just trade a dream for a way  
To peel back the shade behind the gray? I'm in the dark, I'm alone around you  
I've never been here before  
Nobody here to get me through  
Oh, I'm in the dark
