

Hermann Loves Pauline

Super Furry Animals

Hermann loves Pauline and Pauline loves Hermann
They made love and gave birth to a little German
(Hermann loves Pauline and Pauline loves Hermann)
They call him MC Squared because he raps like no other
(Hermann loves Pauline and Pauline loves Hermann)
An asthma sufferer like Ernesto Guevara
(Hermann loves Pauline and Pauline loves Hermann) Too much Monte Kristo number four
(Her and I believe)
Pass the Ventolin I need some more
(They had more)
We have ways of making you think
(To do)
We have ways of making you think
(Than simple balancing) We have ways of making you think
(Two point four family)
We have ways of making you think
(Sanity)
We have ways of making you think
(Personality, a ha ha)
They told me over a drink They never noticed him at school
They tell me he kept himself to himself
He used to sit and stare up at the ceiling
Hermann loves Pauline They never noticed him at school
They tell me he suffered poor health
He used to vacantly stare
Out the window feeling under
Why do you do what they tell you? Marie Curie was Polish born but French bread
(French bread!)
Of course she ended up dead from radiation
Slow invisible suffocation Down the twenty four hour garage or any service station
I lead my life in a quest for information
Since surrounded by pies and books
Middle-aged drivers and deranged cooks They never noticed her at school
They tell me she kept herself to herself
She used to sit and stare up at the ceiling
Hermann loves Pauline They never noticed her at school
They tell me she suffered poor health
She used to vacantly stare
Out the window, feeling under

Why do you do what they tell you? They never noticed her at school
They tell me she kept herself to herself
She used to sit and stare up at the ceiling
Hermann loves Pauline They never noticed him at school
They tell me he suffered poor health
He used to vacantly stare
Out the window feeling under
