

# No More Waiting

## The Blackout

No more waiting\*  
No more wasted time  
No hesitating  
Let's open up our eyes  
Wake up, wake up  
Wake up, wake up  
Don't just think about it  
Give up just trying to think about it  
Light this flame that's in your eyes  
You've got the chance to do it all  
No more chasing  
It's time to save ourselves  
Can you taste it  
Taste it in the air  
Wake up, wake up  
Wake up, wake up  
Don't just think about it

Give up just trying to think about it  
Light this flame that's in your eyes  
You've got the chance to do it all  
Don't just think about it  
Give up just trying to think about it  
Light this flame that's in your  
Wake up, wake up  
Wake up, wake up  
Wake up, wake up  
Wake up, c'mon!

Don't just think about it  
Give up just trying to think about it  
Light this flame that's in your eyes  
You've got the chance to do it all  
Don't just think about it  
Give up just trying to think about it  
Light this flame that's in your eyes
